Year: **2008**

Beam: **18.2 ft**

Fuel Type: **Diesel**

Location: **Miami, Florida,
United States.**

Description

2008 Ferretti Yachts 630 Flybridge Motor Yacht

“Italian Pedigree. Modern Tech. Turn-Key Freedom.”

Exceptionally Updated • Stabilized • Miami, FL Surveyed January 23, 2025 — Full Report Available

The Ferretti 630 is widely regarded as one of Ferretti Group’s most successful mid-size flybridge yachts, known for its unmistakable Italian styling, powerful performance, and intelligently designed interior volume. This particular 2008 example stands out as a rare North American-available unit that has received extensive upgrades, modern electronics, connectivity enhancements, and significant mechanical investment.

With Twin MAN V12 1224-hp engines, Mitsubishi ARG Gyro stabilization, and a recent Furuno TZtouch2 navigation suite, she offers both exhilarating performance and exceptional cruising comfort. The yacht’s 3-stateroom, 3-head layout (plus crew) provides the accommodations of a much larger vessel, including a full-beam master with dedicated seating and oversized hull windows.

The flybridge is one of the largest in her class which features a full wet-bar, sun lounging areas, and forward seating with commanding visibility for owner-operators. Below, the aft-galley configuration connects the cockpit and salon seamlessly, ideal for entertaining or extended cruising.

This yacht has benefited from over \$80,000+ in recent upgrades, including AV/IT modernization, a newer generator install, Starlink connectivity, JL Audio premium sound, new TVs, new A/C compressors, new batteries, and more. A January 2025 survey is on file confirming solid structural condition, strong mechanical performance, clean sea-trial data.

This is an ideal turn-key yacht for owners seeking a European luxury platform that's been continually upgraded and is ready to cruise immediately.

Specifications

- Model Year: 2008
- Builder: Ferretti Yachts / Ferretti Group
- Model: 630 Flybridge
- LOA: 65'6"
- Beam: 18'2"
- Draft: 5'3"
- Hull Type: Modified-V planing with prop pockets and lifting strakes
- Construction: Closed-cell PVC-cored FRP laminates, hand-laid, vinyl-ester barrier coat
- Displacement: 80,248 lbs dry / 93,255 lbs fully laden
- Location: Miami, FL
- Survey: January 23, 2025

Power and Performance

- Twin MAN D2842 LE443 V12 common-rail diesels
- Rated Power: 1,224 hp @ 2,300 RPM each
- Engine Hours: Port 1050, Starboard 1053
- Instrumentation: MAN MMDS-CLC 6.3 digital displays
- Controls: ZF Smart Command electronic controls at all stations
- Transmissions: ZF 665V, 2.517:1 ratio V-drives

Stabilization

- Mitsubishi ARG Anti-Rolling Gyro Provides exceptional roll reduction at anchor and underway

Generator and Electrical

Generator

- Northern Lights – Diesel generator 22Klw
- Hours: 588

Electrical Systems

- 100-amp / 240V shore power inlet with Glendinning Cablemaster reel
- Isolation transformer + Dairyland Galvanic Isolator GI-100A-FSM
- Mastervolt MASS 24/75 charger
- Mastervolt MASS Sine 24/1500 inverter/charger
- ProMariner Pro-Sport HD6 charger
- 24V & 12V DC distribution with digital monitoring at helm
