Description

2008 Marquis 40 Sport Coupe
319,000USD

Step aboard this 2008 Marquis 40 Sport Coupe — a stunning combination of luxury, performance, and modern upgrades. This two-owner, freshwater-only, indoor-heated-stored yacht has been cared for with pride and shows like new. Powered by twin Volvo IPS 600 diesels (D6-435HP each) with only 641 hours, it features the largest motor package offered for this model — delivering a cruise speed of 32 mph while achieving better than 1 mile per gallon, and topping out around 40 mph WOT.

Docking is effortless with Volvo's joystick control, and the experience at the helm is enhanced by newly updated electronics, including dual 22" Garmin chart plotters, Garmin autopilot, 3D HD radar, and 3D sonar. The engine bay is protected year-round with an engine bay heater, and every system has been professionally serviced — this vessel is 100% turn-key ready.

Inside, enjoy the comfort of heat and air conditioning, a massive power sunroof, new refrigerator, a new icemaker, and a luxury sauna integrated into the shower — features that set this Marquis apart from anything else in its class.

If you're looking for a sport coupe that combines top-tier performance, high-end comfort, and true attention to detail, this Marquis 40SC stands as one of the finest freshwater examples available today.
